It is estimated that the cost of our monitor fleet of about forty vessels, carrying one hundred guns, has cost over $200,000,000—$2,000,000 for each gun—which is about of a piece with the magnificent economy the Republicans have been practicing ever since they were in power.

The Buffalo *Courier*, upon what is considered excellent authority, states that the Very Reverend S. V. Ryan, V. C. M., of St. Louis, Mo., has received the appointment of Bishop of Buffalo. Father Ryan is at present the Superior of the Congregation of Missions in the United States.

The Boon county (Iowa) *Index* says that Montana, in that county, is one of the best points in the West for brick masons. There will this year two millions of brick put into walls there this season. Masons are so much in demand there that $5 and $8 per day are being offered.

A horrible accident occurred in New York on Wednesday morning. Three Germans employed in a distillery accidentally fell into a vat of boiling mash, and were almost instantly scalded to death, and a fourth man was badly injured in rescuing the remains of his comrades from the seething vat.

Thomas Conway, a printer, who has been employed in the Saratoga *Republican and Sentinel* office for two weeks past, went into that office on Monday morning in a state of intoxication, and deliberately pied two pages of that paper, lying on the stone, pulling them off upon the floor. Conway's *form was locked up.*

The crew of the ship Lizzie Mores, from Philadelphia for Antwerp, Sunday, mutinied when a few miles down the river. The mate of the vessel was stabbed, and the skull of one of the mutineers was fractured.

Mr. W. H. Betts was brought to Columbus, Georgia, the other day, in military custody. Mr. Betts says his offence was in offering to register a black and tan terrier dog at the office in West Point. The registers refused and he raised a fuss about it, as he understood it made no difference what they registered, so the complexion was all right.

This country seems to be threatened with the invasion of an army of tailors from London. These craftsmen have been on a strike for some time, and have now presented their *ultimatum* to their employers, that the dispute between them be referred to a committee of masters and journeymen. In case the masters refuse this compromise, then, it is said, 2,500 of the journeymen intend to emigrate to the United States.

A letter from the Secretary of the Treasury denies most positively and finally that there has been any over issues in the Printing Bureau of his Department. Enclosing a copy of the partial report made by the committee appointed to look into these matters, which goes to establish the same conclusion, it is to be hoped now that an end will be put to the mischievous stories which interested parties have been circulating to the prejudice of the Treasury and the credit of the Government.

General Wool talked to the Fenians at a picnic in Troy, the other day. He cheeringly said: "It ought not to be forgotten that, to be successful in carrying on war, an organized government is indispensable, with foundries, manufactories for small arms of all kinds, depots for supplies of every description; besides all which many millions of money should be on hand."

C. C. Flint, formerly clerk at the Gosport Navy Yard and proprietor of the *Old Dominion* newspaper at Norfolk, who absconded a year ago, and went to England, having committed frauds to the amount of twenty thousand dollars, has been brought back to Norfolk to be tried, having been arrested in New Orleans. The Exchange National Bank was one of the principal sufferers.

While on a visit to Lancaster on Tuesday, says a correspondent of the *Evening Express*, I learned that Hon. Thaddeus Stevens is becoming more and more feeble every day. He had intended to visit Bedford this season, but was compelled to abandon the idea on account of ill health. He is not confined to his bed, but is compelled to keep the house by reason of his increasing infirmity. Indeed, an intimate friend of his seemed to think it doubtful whether he would ever reach Washington again.

It is well known that a society has been formed in New York for the "Suppression of Gambling." A counter movement has been commenced by the gamblers. On Saturday night the latter held a meeting, at which John C. Heenan was elected temporary chairman. One of the speakers used the following argument: "The business of gambling is a legitimate one. A player pays his money and takes his choice, as he does in the gold room, and so does the most respectable merchant of the city who buys Erie at 99, expecting to sell at 100. And they are both gamblers. One watches the turn of a card; the other waits for a rise in stocks. He who gains in the latter case is no less a gambler than the man who deals faro for a livelihood." This is hard on Wall street.

TENNESSEE ITEMS.

Seth Jones, the constable of Pulaski, was fined one hundred and twenty-five dollars by the Mayor, last Wednesday, for failing to dance attendance when called for.

The Gallatin *Examiner* says: "A large party of veritable Gipsies, forty or fifty in number, with wagons and carryals and stock—women and children—have been camped near town for several days. The women tell fortunes and the men trade in horses, just as their ancestors did a thousand years ago.

The McMinville branch railroad has been completed from Tullahoma, on the Nashville and Chattanooga railroad, to within three and a half miles of McMinville. Omnibuses convey passengers daily from that point to McMinville. By the 1st of September the road will be completed to Barren Fork, which is within half a mile of McMinville.

The Murfreesboro *Monitor* has had a visit from Dick McCann. Dick is in fine health, having entirely recovered from the effects of his long and cruel imprisonment, and has gone to work with his usual energy. He has built a bran new house at Lavergne on the site of his old one, which had been destroyed by the Federals.

The Nashville *Gazette* says: "Major L. A. Gage, recently in business here with General Pearce, is cutting quite a dash, and attracting no little attention, by his novel style in driving. He may be seen any evening, on our principal thoroughfares, directing his spirited steed by the mere motion of his whip, without bit, bridle or rein. His control is absolute, and the horse seems all the more willing to obey because he is free from the ignoble marks of servitude.

The Somerville *Falcon*, of Saturday, says: Reports from all portions of the county represent the crops to be in a flourishing condition. Intelligent planters estimate that the corn crop will be larger than was ever before raised in Fayette county, and will more than supply the demand for home consumption. Cotton is good, but is needing rain badly. The army worm has made its appearance in some portions of the county, principally in the bottom lands which have been overflowed.

The Water Valley *Courier* of the 23d says: "Our farmers tell us they have never known such crops in this county before. Corn is made to a certainty, we are afraid, though, that the army worm will interfere with the cotton prospects, and that in some neighborhoods but little or no cotton will be raised."

The Friars Point *Coahomian* was compelled to come out in a half sheet last week. The editor says: "*We were all sick* from Monday up to Friday morning, with the single exception of our apprentice."

The Water Valley *Courier* says there will be a *grand* gander pulling and picnic at Spring Dale, Yalabusha county, the first Saturday in September.

Rev. W. H. Holcombe, a prominent Baptist minister, and late a member of the Mississippi Legislature, died on the 9th instant, at his residence in Tippah county. Previous to the last session of the Legislature, he resigned on account of declining health. He was a native of Alabama, and son of the well remembered patriarch of this denomination, the author of the History of Alabama Baptists.

Alston Mygatt, of Vicksburg, one of the Board of Registrars for the State at large, has been compelled to resign by General Ord's recent order, which prohibits ministers participating activaly in politics. Mygatt is chairman of the Republican State Committee, and prefers to remain so, therefore he resigns the position of Registrar.

The *Tallahatchian*, of the 24th, says that Frank Sheley, son of Judge W. G. Sheley, a lad about 15 years old, met with a serious accident, whilst in company with others on a temporary scaffold, watching a bear that was depredating on the corn field. The bear made its appearance, at which the boys fired, and wounded it, and in going down from the scaffodling, one of the guns was accidentally discharged, the contents of which consisted of a large ball and five buck shot, passed through the right arm of Frank just below the elbow. Frank was doing well at last accounts.

The registration in Marshall county sums up 1,160 white, 230 colored; in Bibb, 1000 white, 230 colored; in Jefferson 1,591 white, 412 colored.

Dr. J. Y. Cantwell, of Decatur, has been appointed Examining Surgeon of Army Pensions for Northern Alabama, by Jos. H. Barrett, Commissioner of Pensions.

A little daughter of Mrs. Feebles, of Montgomery, was struck senseless by lightning Wednesday evening, her hair scorched and her breast and one cheek severely burned. The injuries are painful but not dangerous.

The Montgomery *Advertiser* has received a letter written by a promising and popular young gentleman of that city, who, having become disgusted with his Brasil enterprise, advises his friends and countrymen to stay at home.

The Montgomery *Mail* of Saturday says: "Paul Taylor, the one armed negro convicted, at the last term of the City Court, for the murder of a white peddler, and respited by the Governor for one month, suffered the extreme penalty of the law, in the jail yard, yesterday, between the hours of twelve and one o'clock."

Hon. Vincent M. Benham, Probate Judge of Lauderdale county, died at Florence on the 20th instant. He was a Representative in the Legislature in 1851, and was that year elected Secretary of State. A MILITARY MENACE.

A Young Confederate Soldier Charged with Having Broken his Parole.

On the day of election a young man, named William Millikin, whose father is a clergyman residing near Lagrange, and who was a Confederate soldier, had a difficulty, the facts of which were published at the time. He was arrested by the military and turned over to the civil authorities. The Mayor of Lagrange heard the case and then fined Millikin six dollars for using threatening language. The fine was paid and Mr. Millikin, who is said to be an orderly and peaceable young man, was set at liberty. On last Saturday, however, Mr. Millikin was re-arrested by the military and brought to this city on the charge of having by his remark broken his parole as a Confederate soldier. Monday an order was made to send him under guard to Taylor barracks, where he is to be confined as a prisoner.

The Memphis Gas Company is actively engaged in putting down main pipes in Jefferson street.

More contracts to put up new dwelling houses were given out last week than for two months previous.

The slight advance in cotton last week, brought out over two hundred bales of last year's crop from Haywood county.

The St. Louis papers contain the advertisment of Robinson Topp, Esq., offering for sale or lease, the Gayoso House in this city.

The house of A. J. Pollock, on Elliott street, was robbed on Saturday night of two hundred dollars' worth of clothing and other articles.

Two deputy constables, named Sullivan and Lynch, were arrested yesterday on the complaint of a black man, who charges them with stealing $300 while searching his place.

The old jail now costs four thousand dollars a month, and when the new jail is occupied, as it will be by October 15, this expense will be greatly reduced.

The young gentlemen who went on the prospecting tour to Raleigh Springs last Sunday are slowly recovering, but, several of them suffered yesterday from headache.

Last year the City Engineer had to supervise the spending of $130,000 for public improvements. This year he will have the supervision of the spending of $1,000,000.

When the new gas company desires to put down mains in streets that have the Nicolson pavement, it is not unlikely that the mains may be placed under the sidewalk near the curbs.

It is rumored that a project has been on the tapis for putting the Mobile and Ohio railroad in the hands of United States Marshall Tomeny, Judge Milton Brown and Robinson Topp, Esq.

A mackerel ran into M. Kraus & Co.'s store, yesterday, and seized a box of brushes. One of the storekeepers was looking at him and tried to stop him, but the young thief got off with his booty.

The great shoe dealer, Horace Stone, Esq., has got back from the East. He has procured goods on such terms that he can compete with St. Louis and Louisville houses. This fact should be known to country dealers.

The county is now paying $7,600 rent for court and other rooms, but will save $1,600 of this when all the county offices and courts are put in the rooms of the Greenlaw court room. This will be in the first part of October.

A new petition having been filed by attornies Gantt and Henry for the release of Reaper who was under arrest for the killing of Hech and Judge Hunter, has admitted him to bail in $4,000, and having given this, he is again on the streets.

Mayor Lofland will be home, it is supposed, today. He will bring definite information whether the Navy Yard will be given back to the city by the United States War Department, and whether in the opinion of the United States Attorney General city notes may be issued without their being subjected to onerous taxation.

Three negroes, named William Reynolds, Thomas Rochford and Clinton Shaw, were yesterday arrested for stealing almost the whole of the Brooks planing mill, two miles from White's station. They put the machinery in a wagon and, bringing it to the city, sold it for fifteen hundred dollars, as old iron.

Frank R. Brooks, Esq., who is the latest candidate named in connection with the Registership of Bankruptcies, is a nice young gentleman who was here a while in war times and then went away. He is and has been a claim agent at Washington, and has not practised at law at the Memphis bar at all. It is doubtful, under the circumstances, that he is eligible.

There was a repetition of the social ills of Memphis Monday, caused by the announcement that the kindly, philosophic James E. Merriman, Esq., of this city, the one Radical of Memphis who is always selected by that party as its best specimen, was united in the bonds of matrimony to an excellent young lady of New Haven, Connecticut, named Miss Lottie J. Braddock.

Two diabolical attempts at incendiarism were made on Sunday night. In one case a villain tried to burn down the residence of Mrs. Dr. Jeptha Fowlkes, a worthy widow lady, and in the other to destroy the residence of the inoffensive C. Canning Smith, Esq. Fortunately the loss from these infernal attempts was not great, as the fire in each case was promptly discovered.

A. S. Mitchell, Esq., Clerk of the United States Court, has returned to Memphis, and has been considerably improved by his trip northward. Judge Trigg will be here this week, and the September term of the United States District Court will begin next week. Judge Trigg has been informed by Judge Swayne, of the United States Supreme Court, that he will be here to preside in the United States Circuit Court.

Louisville merchants seem to be very grasping chaps. They recently found great fault with the freight agent of the Louisville and Nashville railroad because he didn't tax freight so heavily at this end of the line, between Memphis and Louisville, that all business would go to Louisville. The freight agent publishes an explanatory letter. He says he can't help it if some trade does go to Memphis, as Mr. Jones won't favor any discrimination against Memphis, and the Louisville road can't make him do so.

It is stated that a fine hotel is shortly to be built at Wells' Station on the Memphis and Ohio railroad. It is almost a mile and a quarter from the famous Raleigh Springs, and on the sixty acres in and about the station. Purer and cooler spring water is there found than can be obtained in any direction for fifty miles about it. This curious geological fact will tend to develope the City of Wells. It is supposed that the water from some very distant source rises there from great depths, through white sand. It is cold as ice water and perfectly pure.

A correspondent says: "How lovely it is to see Ireland and Africa fraternising. I was on last Wednesday night at the meeting of the Frederick Douglass Council, a colored loyal league. I went there as other whites did, to ring in and get some colored votes by and by. This is all fair in politics, you know. Well, sir, they initiated P. T. Hughes, Esq., into this colored league. I thought 'What a change is here, my countrymen.' When Mr. Hughes, who is a fine looking man of pure Milesian stock, came into the hall to be initiated he was escorted on each side by the blackest black man that could be found. This was for effect; and when they came in locked arm in arm it caused a profound sensation I do assure you. I had myself been looking after the City Controllership a little, but when I saw that scene I gave it up at once, saying to myself 'No man can beat Hughes when he tries.' That he will now get the whole colored vote I don't for a moment doubt. He should get it. No man who saw him sandwiched between the sons of Africa, or heard the unction with which he made the responses during initiation can doubt it. When it was over he made a trifling blunder that slightly marred the effect. He was congratulated on the nerve with which he had gone through it. 'By the powers,' said he, 'I felt that I was making a nigger of myself.' If he had said 'colored person' it would have been all right; but those who didn't exactly like it, however, attributed it to the Irish still in him."

A curious case of information from the other world is mentioned in Spiritualist circles. A clergyman had a working man in his family, who fell dangerously ill. One day a lady, who resided in the vicinity, and had never been known to have any power as a medium, called to see the sick man, and suddenly falling into a trance, wrote out that a certain herb in her garden would certainly cure the disease, and the result verified this prediction.

If there could be on the Mississippi and Tennessee railroad sleeping cars to go over this road and form its terminus to New Orleans by the Central Mississippi railroad, the travel from Memphis southward over it would be largely increased; but the Mississippi Central road won't allow it. It would take from the Central railroad all the travel that the Mississippi and Tennessee railroad would get.

An inquest was held yesterday on the body of Duggen Dockings, the negro who was killed by Bill Sevier, one of his own sort. No new facts were developed, except that Dockings had been so quarrelsome and abusive that other blacks wanted to kill him, and one of them had the gun that Sevier took when he killed Dockings.

One clause in the amended city charter is: "The Treasurer shall make and publish a weekly statement, in the official journal of the city, showing the amount of warrants received from the Mayor and Controller, and the amount received and on hand from all other sources." This little matter seems to have been heretofore forgotten.

The school of the Holy Cross will shortly open again, under the management of the accomplished and indefatigable Mrs. Annie C. Ketchum, whose ability as an instructress is only rivalled by her character as a highly educated and most worthy woman.

There are quite a number of Radicals named for the Legislature, although the election is still some distance ahead. Among them are S. S. Garrett, S. P. Ware, Mr. Hobbs and E. J. Comer, Esq., The Harris-Daily faction are bending all their energies to kill off Ware.

THAT OLD DETERMINED STAND.—Men mak sometimes "a stand," which is repeatedly undertaken and understood as a "take"—a phrase which printers well understand. The base ball game has had a "stand" right here in this city, and it is now understood that the gentlemanly and sociable and manly exercise intend that "blood shall tell." That is, they feel so elate in their proud responsibility of bringing the "game" to perfection in this "city of the bluffs," they are willing to meet any competition, and already have a standing obligation to contend with a most determined and proud antagonist, the contest to come off about the middle of next month.

GROVER & BAKER'S
CELEBRATED
ELASTIC STITCH & LOCK STITCH

SEWING MACHINES

Why the Grover & Baker Machine is Best.

1. It is more simple, durable, and less liable to derangements than others.
2. It sews from ordinary spools, and no rewinding of thread is necessary.
3. It sews with equal facility all fabrics, the most delicate and heaviest, and with all kinds of thread silks, cotton or linen.
4. The seam is so strong and elastic that it never breaks, even on the bias.
5. It fastens both ends of the seam by its own operation.
6. Its seam, though set at every sixth inch, remains firm, and neither rips nor ravels in wear.
7. Its seam is more plump and beautiful, and retains its plumpness and beauty after washing better than any other.
8. Its seam can be removed in altering garments, after proper instruction, without picking or cutting them.
9. Watching and placing the tendency on the threads necessary in other machines, is unnecessary in this. The tension being once adjusted on the Grover & Baker machine, any amount of sewing may be done without change.
10. It makes beautiful embroidery with it any change of arrangement, simply by inserting threads of suitable size and colors for this purpose. It is the only machine that both embroiders and sews perfectly.

WANTED—THE PATENT AURORA OIL.—WE WANT men everywhere to study their own interest. The right to manufacture and sell the Patent Aurora Oil in a single county will make more money to the purchaser in three months than the largest farm in your State will make in a whole year. Any lamp that will burn coal oil will burn the Aurora Oil. It does not smoke the chimney—it does not smell—it will not grease or stain the finest linen—not even white cloth. The material for its manufacture is inexhaustible. One man can make seventy-five barrels per day. No machinery required. We will pay your fare to and from the city of Memphis and bills while here, if we cannot prove all, and even more, than what we have stated. WEDNESDAY, : : : : : AUGUST 28, 1867

THE public mind is at last at ease as to the position of General GRANT. His protest, addressed to the President, against the removal of General SHERIDAN defines plainly and unequivocally the direction of his political sympathies, and dissipates the hope so eagerly indulged that he was for the Constitution against the Congress. He is addicted to Radicalism, wedded to it, and sees reconstruction through Radical glasses. He acts as Secretary of War, *ad interim*, upon the military rule of obedience to the commands of a superior—no matter what the command may be—and does not intend his position in Cabinet to signify any sympathy with the President, or any belief in the propriety of the orders which, by the President's command, he signs himself. General GRANT, in protest to the President, announces and endorses one of the wildest of all the Radical dogmas of revolution and disorder. He says, "this is a Republic where the will of the people is the law of the land;" and he plaintively begs the President that "their voice shall be heard." Will of what people? A fanatical majority of the people of the Northern and Northwestern States? We thought that this Government was a Government of checks and balances; that the House of Representatives was the Legislative representative of the popular will; that the Senate represented the States, intended as a check upon the licentious legislation of a body responsible directly to the people; that they together constituted the Legislative Department; that a Supreme Court existed to restrain both of them to an adherence to the landmarks marked out by a written Constitution, which is obligatory on all; and that there was such a thing as a President provided for in the Constitution, representing both the people and the States, armed with a veto to check a wild and corrupt Congress when it sought to antagonise the Constitution by its legislation, or to pass laws inconsistent with the public weal. General GRANT, however, throws the Constitution, well regulated system of government, law, order, and everything regular, aside, and leaps at once into the arena, the full fledged champion of the wildest Radicalism. He says: "It is unmistakably the expressed wish of the country that General SHERIDAN should not be removed from his present command." If by the country he means the ignorant negro rabble of the South, this may be true. But he cannot mean them, for the mere right to vote at the primary elections about to be held in the non-represented States is only temporary, and for that time only, until, in the event conventions are held, the constitutional guaranty of franchise is given them, and that is confirmed by a rehabilitation of the States into the Union by the action of Congress itself. They therefore do not constitute as yet any part of the political power of those States. He cannot mean the white masses of the South, for General ROUSSEAU said in Louisiana, "the people were much depressed, and any change would almost universally be accepted," and as for the other Southern States, the very name of SHERIDAN is odious to seven-eighths of the white people. He cannot mean the conservative masses of the North, who number largely over a million of voters, and, as we believe, will constitute a majority power in that section at the next elections, for they reverence the Constitution and look upon SHERIDAN as an armed and forcible assailant of its integrity. Who, then, does he mean by the country? He means the Radical mob which backs up the present Rump Congress, and he confesses himself the humble votary of its revolutionary dogmas and destructive incendiarisms. General GRANT could not let pass the opportunity to assail "the unreconstructed element," as he is pleased to call it, in the South. If General GRANT permits himself to be convinced by Radical slander to the belief that there is any such element here, it is his misfortune, and he is to be pitied—pitied the more since his own testimony, which has not been altered by any change in the condition since, was directly to the contrary, when stated some seventeen months since in a report to the President. The Southern people, or at least those of them who, by a strict adherence to principle, are not known as renegades, are an independent people. They have their opinions, and they intend to adhere to those opinions. They know what Government is, and they know that in this there is a written constitution, and that that constitution should be adhered to. They are opposed to its butchery by military satraps, and they have no hesitation in saying so. They are the foes of negro dominion, and they are not careful to conceal it, and they are the uncompromising antagonists of Radicalism, and they do not care who knows it. So much for what General GRANT calls the "unreconstructed element." He will find out yet, that in it is a more certain staff upon which to lean than that upon whose unstable and treacherous support he has so completely thrown himself. It is a great satisfaction to know that the President was not affected by this artful effort of some political *genii* to thwart, through General GRANT, his determined purpose to remove SHERIDAN, and that he caused the order to be issued in spite of that warm and impassioned appeal. By last night's telegrams it will be seen that the order continuing the reign of SHERIDAN because of the sickness of General THOMAS, is revoked, and that General HANCOCK is assigned to his command. Also, that our noon dispatches yesterday announce the removal of SICKLES, who will now subside from his Major General's commission and his regal appurtenances, at his capital in Charleston, to the lesser rank of a Colonel, with one wall tent and a fly. The President need expect no mercy from Congress, whatever he may do; and he had better make the most of his time. He has had the opportunity to save himself afforded to few public men—the second chance—and it looks as if he were determined to embrace it. The fall elections in the North are soon to take place, and with an active and aggressive policy upon his part, in full sympathy with the great Constitutional leaders and masses in that section, a popular rebuke may be administered to the demons who control Congress that will cause them to tremble and pause, from a prudent concern for their own official heads.

THE PRESIDENT'S REPLY TO GENERAL GRANT.

A Crushing Refutation of his Position.

EXECUTIVE MANSION,
WASHINGTON, D. C., August 19, 1867.

GENERAL: I have received your communication of the 17th inst., and thank you for the promptness with which you have submitted your views respecting the assignments directed in my order of that date. When I stated in my official note of the 17th that I would be pleased to hear any suggestions you might deem necessary upon the subject, it was not my intention to ask from you a formal report, but rather to invite a verbal statement of any reasons affecting the public interest, which, in your opinion, would render the order inexpedient. Inasmuch, however, as you have written a communication, it is proper that I should make some reply.

You earnestly urge that the order be not insisted on, remarking that it is unmistakably the expressed will of the country that General Sheridan should not be removed from his present command. While I am cognizant of the efforts that have been made to remove General Sheridan in command of the Fifth Military District, I am not aware that the question has ever been submitted to the people themselves for determination. It would certainly be unjust to the army to assume that, in the opinion of the nation, he alone is capable of commanding the States of Louisiana and Texas, and were he, for any cause removed, no other General in the military service of the United States would be competent to fill his place. General Thomas, whom I have designated as his successor, is well known to the country, having won high and honorable distinction in the field. He has since, in the execution of the responsible duties of a department commander, exhibited great ability, sound discretion and sterling patriotism. He has not failed, under the most trying circumstances, to enforce the laws, to preserve peace and order, to encourage the restoration of civil authority, and to promote, as far as possible, a spirit of reconciliation. His administration of the Department of the Cumberland will certainly compare most favorably with that of General Sheridan in the Fifth Military District. The affairs appear to be in a disturbed condition and a bitter spirit of antagonism seems to have resulted from General Sheridan's management. He has rendered himself exceedingly obnoxious by the manner in which he has expressed even the powers conferred upon him by Congress, and still more so by a resort to authority not granted by law nor necessary to its faithful and efficient execution. His rule has in fact been one of absolute tyranny, without reference to the principles of our Government or the nature of our free institutions.

The state of affairs which has resulted from the course he has pursued has seriously interfered with a harmonious and satisfactory and speedy execution of the acts of Congress, and is alone sufficient to justify a change. His removal, therefore, cannot be regarded as an effort to defeat the laws of Congress, for the object is to facilitate their execution through an officer who has never failed to obey the law, and to enact within his jurisdiction a like obedience from others.

It cannot be interpreted by the unreconstructed element of the South—those who did all they could to break up this Government by arms, and now wish to be the only element consulted as to the method of restoring order—as a triumph; for, as intelligent men, they must know that the mere change of military commanders cannot alter the law, and that General Thomas will be as much bound by its requirements as General Sheridan. It cannot embolden them to renewed opposition to the will of the loyal masses, believing that they have the Executive with them, for they are perfectly familiar with the antecedents of the President, and know that he has not obstructed the faithful execution of any act of Congress.

No one, as you are aware, has a higher appreciation than myself of the services of General Thomas, and no one would be less inclined to assign him to a command not entirely to his wishes. Knowing him as I do, I cannot think he will hesitate for a moment to obey my order, having in view a complete and speedy restoration of the Union, in the preservation of which he has rendered such important and valuable service.

General Hancock, known to the whole country as a gallant, able and patriotic soldier, will, I have no doubt, sustain his high reputation in any position in which he may be assigned. If, as you observe, the department which he will have is a complicated one, I feel confident that under the guidance and instructions of General Sherman General Sheridan will soon become familiar with its necessities, and will avail himself of the opportunity afforded by the Indian troubles for the display of the energy, enterprise and daring which gave him so enviable a reputation during the recent struggle.

In assuming that it is the expressed wish of the people that General Sheridan should not be removed from command, you remark that this is a Republic, based, however, upon a written Constitution. That Constitution is the combined and expressed will of the people, and their voice is law when reflected in the manner which that instrument prescribes. While one of its provisions make the President Commander-in-chief of the army and navy, another requires that he shall take care that the law be faithfully executed. Believing that a change in the command in the Fifth Military District is absolutely necessary for a faithful execution of the law, I have issued the order which is the subject of this correspondence.

EXECUTIVE MANSION,
WASHINGTON, D. C., August 27.

In consequence of the unfavorable condition of Major General Thomas's health, as reported to you in Surgeon Hasson's dispatch of the 21st, my order dated August 17th is hereby modified so as to assign Major General Winfield S. Hancock to the command of the Fifth Military District, created by act of Congress, passed March 2d, 1867, and of the military department comprising the States of Louisiana and Texas. On being relieved by Major General Sheridan from command of the department of Missouri, Major General Hancock will proceed directly to New Orleans and assume the command to which he is hereby assigned. He will, when necessary to the faithful execution of the laws, exercise any and all powers conferred by the acts of Congress upon the district commanders, and any and all authority pertaining to officers in command of military departments. Major General Sheridan will at once turn over his present command to the officer next in rank to himself, and proceeding without delay to Fort Lawrence, Kansas, will relieve Major General Hancock of the command of the Department of Missouri. Major General Thomas will, till further orders, remain in command of the Department of the Cumberland.

Very respectfully yours, etc.,

A Card.

WE will at once rebuild our warehouse, and will have it completed by the 15th of September, but by the first day of that month we will be ready to receive goods on store. The sheds will be divided into fire proof compartments by brick walls, and covered with tin. Those who have patronized us for the last two seasons, and those who may have preferred to do so the approaching one, may rest assured we will be ready for them.

We design establishing a Cotton Compress in connection with our warehouse, upon an adjacent lot, which will be ready by the 1st of October or sooner. The proximity of our establishment to the river renders the handling of cotton so convenient that we can transfer cotton for shipment by river free of drayage. The advantage of the position is equal to one drayage on all cotton sent for compression from other warehouses, while on all cotton in our warehouse for compression there can be two drayages saved, since it would be as easy for us to transfer it from our shed to the Compress as to turn it out in the ordinary way for transfer by drays.

Heinrich, Justice of the Peace, on the 9th day of September, 1867, at his office in Memphis, to defend said attachment suit, or it will be proceeded with ex parte; it is further ordered that this notice be published in the Memphis Avalanche for four consecutive weeks.

FRENCH MEDICINES PREPARED BY GRIMAULT & COMPANY

Chemists to His Imperial Highness Prince Napoleon.

THESE different medicines represent the most recent medical discoveries, founded on the principles of chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorized by the government. This fact must be a guarantee for the excellency of Messrs. GRIMAULT & CO.'S medicines.

Dr. Leras' (Doctor of Medicine) Liquid Phosphate of Iron.

The newest and most esteemed medicine in cases of CHLOROSIS, PAINS IN THE STOMACH, DIFFICULT DIGESTION, DISMENORRHEA, ANIMEA, GENERAL DEBILITY and POORNESS OF BLOOD. It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under any kind of debility whatsoever. It is the preservative of health *par excellence* in all warm and relaxing climates.

No More Cod Liver Oil—Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the hospitals of Paris. It is a perfect substitute for COD LIVER OIL, and has been found most beneficial in DISEASES OF THE CHEST, SCROFULA, LYMPHATIC DISORDERS, GREEN SICKNESS, MUSCULAR ATONY and LOSS OF APPETITE. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in DISEASES OF THE SKIN. Further, it will be found to be of great benefit to young children subject to HUMORS and OBSTRUCTION OF THE GLANDS.

Consumption Cured—Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in cases of PHTHISIS and other DISEASES OF THE LUNGS. It promptly removes all the most serious symptoms. The cough is relieved, night perspirations cease, and the patient is rapidly restored to health.

N. B.—Be sure to see that the signature of GRIMAULT & CO. is affixed to the bottle, as this syrup is liable to imitations.

No More Difficult or Painful Digestion—Dr. Burin du Buisson's (Laureate of the Paris Imperial Academy of Medicine) Digestive Lozenges.

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive functions, such as GASTRITIS, GASTRALGIA, LONG AND LABORIOUS DIGESTION, wind in the stomach and bowels, EMACIATION, JAUNDICE and COMPLAINTS OF THE LIVER AND LOINS.

Nervous Headaches, Neuralgia, Diarrhea, Dysentery, Instantly Cured by Grimault's Guarana.

This vegetable substance, which grows in the Brazils, has been employed since time immemorial to cure INFLAMMATION OF THE BOWELS. It has proved of late to be of the greatest service in cases of CHOLERA, as it is preventive and a cure in cases of Diarrhea.

Ferro Manganic Powder, prepared by Burin du Buisson, approved by the Academy of Medicine in Paris.

A small quantity of this powder in a glass of water is sufficient to obtain instantly an effervescing mineral and gaseous water to be drank at meals, either pure or mixed with wine.

It is a most valuable medicine for persons suffering from Chlorosis, Stomach Aches, and for Ladies suffering from Difficult or Suspended Menstruation. It is especially recommended to persons unable to digest the ordinary medicines containing iron. This celebrated preparation has the advantage to prevent all tendency to constipation, and to contain a certain portion of manganese, considered by the most eminent medical men as indispensable in cases of treatment by ferruginous medicines.

No More Copaiba and Cubebs—Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other medicines have failed these preparations will always effect a cure. They insure rapid and extraordinary cure of severe, recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr. Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in the more chronic cases.

GALLAWAY, HAMPTON & CO.

THE MEMPHIS AND OHIO RAILROAD.

What Governor Brownlow Means.

It is stated that Governor Brownlow has taken possession of the Memphis and Ohio railroad, and has appointed Dr. Daniel R. Cliff as Receiver, with the understanding that the Hon. F. S. Richards, who has never got pay for his services to Radicalism in the last session of the State Legislature, is to be chosen Superintendent.

Governor Brownlow has partisan friends in other roads that are more behind with the State interest than the Memphis and Ohio railroad. Is that the reason why he don't say a word about them? The Clarksville road made its most costly improvements before the State took charge of it, and it was just paying expenses. Since that it has been loosing somewhere between twenty and twenty-five thousand dollars a month. Just so long as it keeps on in this way, the Receiver will have his five thousand dollars a year situation. The sooner a railroad that is in the hands of a Receiver pays its way, the worse for the Receiver.

It is supposed, however, that, if as alleged, Governor Brownlow has taken the Memphis and Ohio railroad, there is more at the bottom of the affair than merely rewarding one or two unscrupulous Radical partisans. Governor Brownlow has a malignant hatred to Memphis, and has neglected no opportunity to do her injury. He regards her as not merely anti-Radical, but scornfully anti-Brownlow. There has long been a desire on the part of Louisville to direct the trade that would naturally come to Memphis towards her. She has again and again sought to inspire the Louisville and Nashville railroad with the same feeling. The Louisville and Nashville railroad owns a large amount of stock in the Memphis and Ohio railroad. She has tried to buy out the Clarksville railroad and if she can not get the control of the Memphis and Ohio she can turn trade away from our city. Doctor Cliff has no interest in opposing such project, nor has Mr. Richards any. Mr. Woodruff and Mr. Jones had such interest, and Memphis owes them much, not merely for the energy and marked ability displayed in getting that great road in operation, but for the regard they have shown to the interests of our merchants and other business men. No other man but Mr. Woodruff could, at the time he undertook the task, have secured public confidence and carried on the task to completion. No man can devote himself more fully than Mr. Jones to the duties of the superintendency, or can more economically carry on the operations of the road, but the new men may sacrifice Memphis to Louisville.

EXCURSION TO LOOKOUT MOUNTAIN.—The Memphis and Charleston railroad, in order to afford our people the advantages of a visit to Lookout Mountain, will issue excursion tickets, commencing September 7th, from Memphis and all stations on this road, to Chattanooga and return, for fare one way—good during the month of September next. Fare from Memphis to Chattanooga, and return, $17; omnibus fare from Chattanooga to top of mountain, and return, $2. Two trains leave Memphis daily at 6:40 a.m. and 6:10 p.m. The grand excursion train will leave Memphis September 10th at 6:10 p.m. and will receive excursionists from the Mississippi Central, Mobile and Ohio, Nashville and Decatur, and Nashville and Chattanooga railroads, and all way stations, for Chattanooga and the mountain. The grand gathering of parties from Nashville, Knoxville, Atlanta, etc., will be on top of Lookout Mountain on the 11th and 12th of September.

General Ticket Agent Memphis and Charleston Railroad.

LA RUE'S CARNIVAL MINSTRELS.—The audience last evening at the Greenlaw Opera House was large and discriminating. The musical department of the entertainment was very superior and gave great satisfaction, as repeated applause and encores fully attested. In the first part, "We Parted by the River Side," and the "Wandering Refugee," were striking and impressive. The same may be said of Hernandez on the guitar, which he touched with delicate skill and exquisite finish. The cornet solo of Mr. Bowles, "My Maryland," was as soft and perfect as sounds can be conveyed by an instrument. The clog dance of Ned West was appreciated by the audience and an encore desired. Taken altogether it was one of the best minstrel performances we have witnessed, and its repetition will draw a crowded house this evening, when new features will be introduced.

SELECT CLASSICAL SCHOOL.—The next term of studies at this deserving and popular institute of learning will commence the first Monday in September, under the management of Mrs. R. H. Hanbury, a lady of thorough education and capacity to discipline the pupils intrusted to her care. The studies are designed to embrace all useful English courses, with painting and music. Her assistants in three ornamental branches are of the first grade of excellence. Parents may feel well assured that the instruction of their children will receive the strictest attention of the principal, while the greatest care will be exercised for the preservation of health, and to promote vigorous physical development. The school room is in a quiet, healthy location, at No. 60 Rayburne avenue, formerly Pigeon Roost road.

MEMPHIS COLLEGE.—The announcement in another column that Memphis College (formerly St. Lazarus) will open for the fall session on September 2d, with the able, learned and untiring Dr. Ford as President, and with highly competent assistants, is a matter of interest to parents and guardians. Under the management of Dr. Ford, this school, in the thoroughness of its tuition and the progress of its pupils in sound learning, will be second to no college in the South. It will deserve an increase of that patronage which has heretofore been liberally given to it.

MCGIMSEY'S SOAP.—Testimonial from Colonel W. W. Gates, of the *West Tennessee Whig:*

Mr. P. McGimsey:

Your agent, Mr. Dillehay, has canvassed this city (Jackson) thoroughly, and has satisfied all that the soap he offers is no humbug. All you have to do is to appoint a local agent, and your soap will be introduced generally in this section.

W. W. GATES,
Editor *West Tennessee Whig.*

A NECESSITY OF HARD TIMES.—The tightness of the money market and stagnancy of business for several weeks past, induces the postponement of the drawing of the Southern Asylum fund for this month. The two drawings will occur at the same time. The one embracing city property, Colonel Gallaway's residence among the rest, and the other, farms on railroads. The company has extended its agencies through the Northwest, and its future operations will be greatly enlarged.

Emmons & Son, No. 10 Jefferson and 393 Main, have received the New York Citizen, Waverly Magazine, Albion, Police News, Wilkes' Spirit of the Times, Blackwood's Magazine for August, Every Saturday for August, Atlantic for September, Eclectic for September, London Art Journal for August, and dailies from everywhere. Call at Emmons & Son's for your reading matter.

THANKS.—We are glad to see again in our midst A. Hitsfield, Esq., who reached home last night, and kindly remembered us with favors of late papers. Mr. Hitsfield brings us encouraging accounts of the progress of constitutional principles at the Northwest. The German element cannot stand the Puritanical restrictions which Radicalism proposes to throw around it.

MUNICIPAL COURT.—Meets to-day pursuant to adjournment.

WAR AT WALL'S HILL.

Stampede in Pigeon Roost Settlement.

A few days since we published an account of the action of a Radical fool named Gill, in Marshall county, Mississippi. Gill was an agent of the Freedmen's Bureau, a teacher of a colored school, postmaster, exhorter, horse jockey, and as he says, employe of the Republican Committee in the North to establish African Loyal Leagues. There was a failure at his meeting at Wall's Hill, which is ten or eleven miles northeast of Holly Springs, and where he made a ridiculous but very mischievous speech. He determined to try it on again. He collected black members of the Leagues at Tullahoma, Talesco and Holly Springs, and arming two hundred of them, marched with a league banner, in battle array, to Wall's Hill, where the banner was placed on a home rack in front of Mr. Eason's store. Mr. Eason objected. Gill said it should stay there, Mr. Eason said the horse rack was private property, and the banner must come down. Gill thought he could'nt take it down. Eason did so. The blacks and Gill got excited. Mr. Eason, a Mr. Mathews and a Mr. McClew got arms and went into the store, which was threatened with attack. The banner was put back. Eason and his two friends went out, tore it down and trampled it in the dust. Then Gill and the negroes made demonstrations of fight, and the three white men retired in good order into the store. Gill made an inflammatory speech to the blacks. He told them that they had three hundred thousand in the North to back them, and would soon have their league and do as they pleased, if they had to trample on the dead body of every white in the county. The blacks applauded. Then Gill having marched up and made his speech on the hill, marched down again. When he and his rabble followers got to Pigeon Roost bottom it was dark, and under excitement, or to scare away ghosts, some of the blacks let off their guns. At once the whole body took the alarm. They tumbled over each other, they fired their guns off into the dark, and they kicked up a terrible rumpus. Every fellow took to his heels as rapidly as possible. Gill reported that he and his blacks had been ambushed and fired on, and, on his complaint, Major Ewing, who commands at Holly springs, sent twenty cavalry men and arrested Messrs. Mason Mathews and McClew, who were tried yesterday, but the result has not transpired.

THE IUKA TOURNAMENT.—A notice of this intended grand affair will be found on our first page. From what we can learn, it is intended to eclipse any thing that has taken place in the Southwest.

ITEMITAS.

Don't forget that the pleasant Persian Picnic is to come off to-day.

The house of John Martin, No. 85 Linden street, was robbed of eighty dollars on Monday morning.

An overgrown mackerel, named Charles Warren, was held yesterday for stealing a hat worth two dollars and a half.

The arrangements for having Mississippi cotton come here before paying duty or giving bonds, are to be settled at the meeting of merchants to-morrow.

There is to be a grand performance of the Mathian Association, at the Greenlaw Opera House, on Friday night. Ladies and gentlemen are to take part.

A census just taken by the Superintendent of Public Schools shows that there are in Memphis 4,183 children who should attend school; of these, 4,008 are whites, and 3,185 blacks.

The Radicals who don't give any work to negroes how! we Conservatives discharge those that don't suit. This is their way of showing their love for the negro.

The two blacks, named Cross and Robinson, who attempted the life of Mr. Scudder, recently, have been held in six hundred dollars each to answer at the next term of the Criminal Court.

Sullivan and Lynch, who were recently charged with taking money belonging to a colored man, intend to publish affidavits exonerating them, and ask a suspension of opinion until they are fairly tried.

The carts employed to do work for the Street Commissioner were yesterday required to be licensed. Some of the drivers were indignant and made quite a display of their licenses by hanging them on their horses.

A correspondent wishes us to direct attention to the fact that the street sprinkling carts have not been out for two days, and that the dust is not simply very annoying, but does a great deal of damage to goods in stores.

There are now seven Radicals for the Sheriffalty, the election for which comes off some six months hence. At this rate we may expect at least a score of these patriots to come out, as we said that Ware, Dalrymple and Garrel are at present in advance.

The Street Railroad Company have sent a man to St. Louis to see what the cost of laying a track on the Nicolson pave-ment in different manners is. When he returns, in two or three days, the company will be in a condition to make a proposition to the city.

The injunction against laying the railroad track through Hernando street is to be released to-day, under agreement that the railroad company will put down ten feet wide of planking the whole length of the track, and that allowing the work to proceed thus is not to prejudice the rights of the city.

A meeting of the stockholders of the Memphis and Charleston Railroad Company is to be held at Huntsville to-day, and it will gratify the many friends of President Tate to know that he has so far convalesced that he will attend. Some very important business, affecting the interests of both the city and the road, is to come up for discussion.

A called meeting of the City Fathers is to be held to-day or to-morrow to prospect the bluff, take observations of the river channel, determine where the bulkhead and other pleasant and expensive gimcracks are to be placed, and having ascertained whether there is any danger of the Mississippi running up stream, close the day socially at some saloon.

A small attempt is made by the organ of Radicalism to make it appear that the Tobacco Inspector was removed and roughly handled because he was loyal. Well, if letting tobacco go out without complying with the revenue regulations constitutes loyalty, then Mr. Black was a martyr. If he was a party to violation of the revenue regulations, he got what he deserved, and this talk about loyalty is a dirty partisan attempt to make capital.

A few days since a gentleman from one of the rural districts chanced to be here, and, calling on a city friend, wanted to know how he should go to work to secure an appointment as one of the United States detectives, whose main business it is to keep a sharp look out for liquor manufacturers, who violate the revenue laws. When the friend had given the desired information, he said: "But why do you want that place so particularly?" "Because," said the gentleman from the country, "by G—d there's a fellow going to give me one-half of his distillery if I get the place." The explanation was considered perfectly satisfactory.

Some citizens fear that the paving contractors, wishing to get their pay presently (as other should), will pave blocks where there are property holders timely to pay up at once, to the neglect or postponement of other work. We do not suppose there is any present whatever for such fears. The paving of each street should be a continuity. The paving of Madison street from Main to Third streets will not much benefit the greatest artery of trade in Memphis, if the slough that existed last season in front of the Greenlaw row is not eradicated. At that place a mule was drowned, corn and other goods that were being taken to the Charleston depot for shipment were damaged, and it was almost impossible for either loaded carts or foot travelers to get through.

We direct public attention to an announcement in another column of a grand excursion that is proposed, on the Memphis and Charleston and other railroads, to Lookout Mountain. Such an excursion would pass through perhaps the richest and most beauti ul country on the Western continent, and certainly through scenery that, for grandeur, picturesque character and freshness, is nowhere surpassed. The terminus of the grand excursion is a place whose sublimity and deep historic interest will unite to no world renowned locality. Where, indeed, can first settled this country the Indian were in the habit of holding their grand powwows by Lookout Mountain? Which impressed even their wild and untutored minds just as dread Sinai awed the Israelitish people. The discovery of Gold was a feeling that would result from such an excursion as that proposed, one scarcely be over-estimated.

JA Sandeman has been asked for to compel Beaumont and the police to comply with the law and many more statements of the money and valuables coming into their possession. A day will probably be set for hearing the matter argued. It was understood on the streets that the Beaumont mare is tried and clear the law, but no such intimation has been made to the city authorities. He won't yield if he can help it. If he files the statements required by law, he will be in danger of being convicted of perjury in one breath, or of pusillanimity and incompetence on the other. If he tells all truthfully, he will escape perjury, but will have to explain a hundred dirty transactions to which the sworn statement of himself and subordinates will give a clear. Perhaps, as the best thing that can be done under the circumstances, he may humbug and prevaricate as long as he can, and then, under the plea that disloyal City Fathers are meddling with him, resign and get an appointment from Brownlow as Receiver of the Hunterstown railroad, which owns a big pile of interest to the State, and would have been taken long ago if Brownlow's friends had not been interested.

RIVER NEWS.

AVALANCHE OFFICE,
Wednesday, August 28.

BUSINESS—WEATHER—RIVER.

Weather warm. Business dull. The river is steadily declining, with nine feet in the channel to Cairo. The Ohio is rising at Pittsburg, with six feet in the channel. At Cincinnati, Louisville and Evansville it is also rising slowly, which will improve navigation and enable steamboats to come out with full trips. The Arkansas is declining slowly, with the channel cutting out. Three feet is reported on the bars to Little Rock.

ARRIVALS.

Steamer Victor No. 2, Hale's Point.

DEPARTURES.

Steamer Ship of Alton, St. Louis.
Commercial, White river.
Kanawha, Vicksburg.
Mollie Hambleton, St. Francis river.

IN PORT.

Gleaner, Victor, J. S. McCune.

MISCELLANEOUS.

The weather was clear and very warm yesterday. There was a fair river, but no arrivals or departures on the landing. We shall soon have the great staple coming in, when our city always wears an appearance of activity that is refreshing after months of stagnation.

Reasons (unanswering) may most have it covered according to law. The penalty is enormous for dotages, the informant getting one-half the amount. The custom officials at Cincinnati have informed against some ten or twelve boats, including the Aleck, America and St. Nicholas.

The river at Pittsburg, on Saturday, was five feet. The Monongahela was also on the rampage.

It is a general remark that the present season has been unprecedented for a long continuance of a good stage of water in the Mississippi river and its tributaries.

On Friday evening last Mr. Alan Sloan, a well known pilot, was shot at Hamilton, Kentucky, by a man named Johnson, which resulted in his death a few minutes after. Deceased lived in Newport Ky.

The New Orleans and Cincinnati packet line will have special agents to represent them at the various prominent points.

Capt. Sam Houston has purchased of Capt. Williams the steamer Pocrisa, for the Arkansas river trade. She will be completely remodeled in almost every particular for her new trade, and will be ready within one month. It is the intention to take out her present machinery, and give her low power, lengthen her chimneys, and give her a texas.

Cincinnati wants a Tennessee river packet line. Parties interested propose to raise $50,000 to support a line.

The Pre King, on her trial trip from Cincinnati to Louisville worked well until a bolt gave way. The first twenty-five miles of her trip were made with 120 pounds of steam, without variation; and the balance of the distance it was increased to 128 pounds. The excursionists all agree that, so far as the use of naptha for fuel is concerned, the experiment has proved highly successful.

The city "Dude" design inspecting the wharf this morning, and will devise means to prevent the caving in of the levee.

The Minnesota will be found at the wharf this morning from Cincinnati, and leaves for a return trip to-morrow evening.

Evansville dispatches of Sunday says the Michigan is preparing to leave for Memphis with two barges loaded with hay and corn. The tobacco crop is nearly exhausted, and the receipts are falling off. The entire machinery of the Missouri has been safely removed and landed. It is in excellent condition to build to.

The good and fast sailing ship Trade Wind, J. S. Morrill commander, will sail from her wharf at New Orleans every fourth Saturday of each month for Belize, British Honduras, making close connection with the steamer Enterprise for Santo Tomas, Omos or Ysabel. The Trade Wind has superior accommodations. For freight or passage apply to D. Dowd, her agent, No. 110 Poydras street, New Orleans.

As a sentiment, boasting recently of the ship-building prowess of his countrymen, said that they made beautifully light steamers to run on the Western rivers—"steamers that can jump over sand bars, float easily on the wet grass, and are obliged to run to another when there is a heavy due."

The Gleaner, Capt. King, leading up quickly for the Arkansas river and all way points, and will leave to-day at 5 p.m. Mr. John Fenwick, a genial and clever gentleman, has charge of the office.

The Belle St. Louis is the regular Thursday St. Louis packet.

The Louisville *Courier*, in speaking of the towing boats says the large line mania has culminated, and is now on the retrograde. The pilots are about to hold a meeting and fix their wages at $5.00 per month. This, we think, is little enough. The St. Louis barge line is on its last legs, and Capt. Gogg, of the Cincinnati barge line, didn't make enough, or more than enough, last season to pay for repairs. Louisville has never called for a barge line, and will, we hope, never be troubled in that line.

The Victor No. 2, Captain House, is now regular Wednesday Osceola and bends packet. She leaves at five p.m. Johnny Grehan is her attentive head center.

The departures include the Commercial for White river with a good trip; the Natoma for Vicksburg mostly full trip; the Mollie Hambleton for St. Francis river, and the City of Alton for St. Louis.

Mr. Mike Fyne, the energetic and public-spirited steamboat man of Memphis, is in St. Louis, hurrying up the new shaft for the St. Patrick. The St. Patrick will be ready to resume her trips on Tuesday next. The Natoma will then be placed in the St. Francis river trade.

The St. Charles will probably enter the Louisville and Vicksburg trade.

The coal boat pilots have held a sort of meeting to devise ways and means, like Congress, to pay themselves good wages, and virtuously and unanimously resolved to advance the price of piloting a pair of coal boats to New Orleans. Is it any wonder poor people complain of hard times and the high price of fuel?

The steamboatmen and others are turning their attention to petroleum as fuel, owing to the present extreme high price of coal.

A strong and earnest effort is being made to have a Marine Hospital at Cairo. The overseer of the poor of that place announces that he had six applications in one day for transportation to the Marine Hospital," when there is no such institution there. That Cairo is the place of all others where a hospital should be erected, must be apparent to every one. More people pass that point than at either of the towns where Government erected hospitals. After referring to this fact, a writer to a Cincinnati paper has the following, which has a strong bearing on the subject: "We do not complain of the erection of hospitals at the cities above mentioned, but merely of the fact that none is erected at a point in so much more need of one. Almost every boat which passes those points passes Cairo also, while hundreds of other boats land at Cairo which do not pass those places. Boats from St. Louis to Memphis, or returning, have no point provided by Government at which they can put off their sick between the two ports, and it is well known what fatal effects are frequently produced by keeping the sick on board of crowded steamers. Boats coming up stream from points below Memphis are in the same difficult position after leaving Memphis, and there is now, since the destruction of the Paducah Marine Hospital, no accommodation for the sick steamboatman until he reaches Evansville, on the Ohio, or St. Louis, on the Mississippi. Yet the hospital dues are regularly deducted from the wages of crews, and as regularly collected by the Custom House officers. Where does the money go?"

Our Southern Widows and Orphans

IT is the duty of every true Southern person to cast in a mite to the support of those who have been left in a dependent condition by the loss of a dear husband or an affectionate father, who laid down their lives in the defence of our once glorious but now Lost Cause!

And being impressed with a sense of this duty, I have determined to set apart, per one-fourth, of my net income for that purpose; and as my business is the publication and sale of the first classed non-here Literature, for which I have exclusive control of the states of Arkansas and Tennessee, and the counties of Washington, Hollmes, Attala, Wont ot and Noxubee, in all counties north of the same in the State of Mississippi, I feel assured that the good people of my section are willing and will assist me in my determination to do this end. I wish a good woman or lady in every civil district, within the above territory, who feels an interest in the needy, and who will give a few weeks time, energy and influence to the business, to canvass their respective districts for our standard Southern Historical works. For such services we will allow a liberal commission on sales.

We wish the very best of citizens, and those who can and will take an active interest in our enterprise, to whom we refer to the following names, should they desire to make inquiries.

Russia Orders 100,000 Borden Rifles from the United States.

WASHINGTON, August 27.—A private letter from Fort Hayes, Kansas, of the 20th, says the cholera has been the scourge of the plains this summer, and it seems strange that it should ever become epidemic, the air being so free, and so many thousands of square miles of it. One company of cavalry at that post lost twenty-one men by cholera, and thus far eighty-two men at all have died with the cholera at that post.

The following order has been issued removing General Sickles:

EXECUTIVE MANSION,
WASHINGTON, D. C., August 27.

Brevet Major General Ed. R. Canby is hereby assigned to the command of the Second Military District—created by an act of Congress, March 27, 1867—and the military department of the South, embracing the States of North Carolina and South Carolina. He will as soon as practicable relieve Major General Daniel E. Sickles; and on assuming the command to which he is hereby assigned, will, when necessary to the execution of laws, exercise any and all powers conferred by acts of Congress upon district commanders, and any and all authority pertaining to officers in command of military departments. Major General Daniel E. Sickles is hereby relieved from command of the Second Military District. The orders of the War, *ad interim*, will give the necessary instruction to carry this order into effect.

[Signed] ANDREW JOHNSON.

LONDON, August 26.—The reports of troubles in Spain are conflicting and unreliable. Official dispatches published at Madrid say all risings have been put down, and the insurrection ended. Advices from the insurgents themselves maintain that the movement against the Government is going on with success, and gathering strength daily.

ST. PETERSBURG, August 26.—The Russian Government has sent an order to the United States for 100,000 Borden rifles.

The Holy Land excursionists are on the Quaker City at Odessa.

BERLIN, August 26.—Preliminaries for a meeting between King William and the sovereigns of the South German States have been arranged. Baden has been agreed upon as the place of the conference, which will be held at an early day.

PARIS, August 26.—M. Veipeau, the eminent physician, is dead.

An Abolition Congress, composed of leading anti-slavery men of the world, commenced its session here to-day. A large number of Americans and many representatives of the African race are present. One object of the Congress is to prepare and adopt a memorial to all powers which tolerate human slavery, urging the total abolition of all such bondage.

MARSEILLES, August 26.—The arrival of a steamer from the island of Candia brings the following intelligence:

While the Russian war steamer was taking on board a number of refugees on the Cretan coast, the commander of a Turkish man-of-war, lying near by, forbade any further embarkation; the Russian commander refused to desist, and both vessels ran out guns and prepared for battle, but Omar Pacha interferred and prevented an engagement.

LONDON, August 26.—Consols, 94¾; 5-20s, 73¾; Illinois Central, 77½; Erie, 45¼; Atlantic and Great Western, 21.

COMMERCIAL.

DAILY AVALANCHE OFFICE,
WEDNESDAY, August 28, 1867.

The continued drouth has had a most beneficial effect on the cotton crop, by destroying the stemy worm and restricting its ravages to a limited extent. We hear the most favorable reports from White river, and throughout the state of Arkansas. The cotton is turning out much better than the fondest anticipations had promised, and corn is every where most luxuriant. Within a couple of weeks we shall have cotton rolling into this city, and life and activity once more assert their reign. We hear of splendid crops in "the bends," and agriculture has never been more prolific every where throughout the South. Our merchants should prepare to inaugurate the busy season, by re-establishing the Chamber of Commerce on a sure and effective basis. This will be the great distributing point, and Memphis the great grain market of the South. A vast influence will soon be visible, when money will begin to flow in for the purchase of breadstuffs and produce, instead of going off in search of subsistence. The new order of things will find the people in better condition than they have been. Men will be able to realize what they have toiled for, and estimate more closely the value of their means. There was a fair local and shipping trade doing yesterday in plantation supplies.

COTTON—The market yesterday was quiet, with light offerings, a meagre demand, and few transactions. Prices were weak and unsettled. Middling ruled at 26@26½c, low middling at 25@25½c, good ordinary 23@24c, strict middling at 26@26½c.

GENERAL MARKET.

[NOTE—Our quotations are the wholesale prices unless otherwise stated. In filling small orders to the city or country trade an advance of three to five per cent. is obtained.

PORK—The market during the day was quiet and heavy, with a small demand; prices were unsettled. Prime was held at $20 per barrel, and $19@19½ for mess.

LARD—Active at 20@21c ton for choice new packing; timothy, 40@45c.

OATS—Light receipts and very moderate demand; jobbing at 70@75c.

FLOUR—Quiet; sales were made at $9 for extra; double extra, $11 50; treble extra, $12 50@13; fancy, $14 50.

CORN MEAL—Quiet at $2 25 @ bbl, or 1c@1½c and $1 10@1 25 in sacks, in first hands.

PROVISIONS—The market ruled steady, with a fair jobbing trade doing. Prices were firm and unchanged. Mess pork, $20 75@21; prime, $19@19½. Bacon—Sides firm and steady; clear sides, 19@19½c; breakfast cases, 19@19½c; clear ribbed sides, 18@18½c; clear sides, 18@18½c; sugar-cured hams, 20@22c; canvassed hams, 19@20c; sugar-cured shoulders, 14@15c; canvassed shoulders, 13@14c. The Mount Auburn Young Ladies' Institute,

SITUATED on that beautiful eminence north of the city of Cincinnati from which it derives its name, has just closed its twenty-second session.

The past year has been one of unusual prosperity, there having been in attendance two hundred and thirty Boe young ladies, gathered from all parts of the United States. No case of sickness requiring a physician has occurred.

In addition to the healthfulness of its country position, while yet so near the city, gives it advantages over either city or country schools.

Its character as a first rate Seminary of Learning is too well known to need further comment.

The Library, Cabinet and Apparatus, already very extensive, are receiving yearly additions.
